Sportsmanship is the primary philosophy of the program.

Managers and coaches shall keep their players under control at all times and shall confine them to the bench area and shall restrict the bench and bench area to authorized personnel only. The only personnel authorized to be on the bench or in the bench area are players, coaches, manager, and bat boys/girls.

The manager shall try in every way to control the crowd and his/her followers, parents, etc., and shall not himself take action designed to cause trouble. Managers can assist in this area by explaining the philosophy of our program and the harm that can be done to boys and girls by not learning to properly accept the decisions of officials.
